UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF OHIO EASTERN DIVISION

TONY FISHER, aka KELLIE REHANNA,) CASE NO.: 4:19-CV-1169
Plaintiff,)) JUDGE SARA LIOI)
vs.) NOTICE OF FILING THE DEPOSITON
FEDERAL BUREAU OF PRISONS, et al.,	OF ELIZABETE STAHL, D.O.
Defendants.	,

Plaintiff, Tony Fisher, aka Kellie Rehanna, by and through counsel, hereby notifies this Court and Defendants that the deposition of Elizabete Stahl, D.O. that was taken on July 21, 2021 (attached hereto) has been filed in this case.

Respectfully submitted,

/s/Edward A. Icove

Josh, will you MR. ICOVE: 1 stipulate for the record that the court 2 reporter can swear in the doctor by Zoom? 3 MR. GARDNER: Yes. 4 ELIZABETH STAHL, M.D. 5 Of lawful age, being first duly sworn, as 6 hereinafter certified, was examined and testified as 7 8 follows: 9 CROSS-EXAMINATION By Mr. Icove: 10 Good morning, Doctor. My name is Ed Icove and 11 I represent Tony Fisher, aka Kellie Rehanna, 12 who I will be referring to as Kellie. 13 Obviously based upon your preference 14 you can refer to her any way that you'd like. 15 Today's deposition is being taken 16 pursuant to agreement of counsel. And you are 17 designated to testify, as you note, on Items 3 18 through 7 of the Amended Rule 30(b)(6) Notice 19 which was filed on July the 14th in the case 20 Tony Fisher versus Federal Bureau of Prisons, 21 et al., case number 4:19CV1169 in the United 22 States District Court, Northern District of 23 Ohio, Eastern Division. 24 We are going to cover those topics 25

first and after those topics have been covered 1 2 I will just ask you a few more questions. 3 Have you ever had your deposition taken before? 4 5 Α Yes. So you understand the basic ground rules. 6 0 7 you don't understand something you can ask me 8 to rephrase it. Although this is formal and we're doing it under oath, it's more like a 9 10 conversation just so that we can get information from you and find out information 11 that you can give to us that will enlighten us 12 on this case. 13 I understand. 14 Α So if you have a problem with a question of 15 Q mine please feel free to ask me to rephrase 16 17 it? 18 Α Thank you. I will. 19 Q Okay. Just as a little bit of a background because I don't have any on you in writing, 20 21 what is your position at the Bureau of Prisons? 22 I am the incoming medical director. And I say 23 Α incoming because there is a period of 24 25 transition. The outgoing medical director is

1		
1		still on duty until August 27th.
2	Q	And that's Dr. Allen?
3	A	That is correct.
4	Q	And it's your understanding, that you're
5		taking his place for today's deposition?
6		MR. GARDNER: Objection. I'm not
7		exactly sure what you're referring to. We've
8		designated Dr. Stahl as a 30(b)(6) designee.
9		MR. ICOVE: Okay. That's fine.
10		Well, we'll get into the nitty-gritty,
11		but that's fine.
12	Q	So what is your current position?
13	A	I'm the current medical director for the
14		Bureau of Prisons.
15	Q	Is that for the entire United States?
16	A	Yes.
17	Q	How long have you had that position?
18	A	March 2nd of 2021.
19	Q	And before that what was your position?
20	A	I was a clinical director at FCC Allenwood in
21		Pennsylvania.
22	Q	How long were you there?
23	A	From August of 2009 until I reported to D.C.
24		on March 2nd.
25	Q	Before that did you hold any other positions

1		at BOP?
2	A	No.
3	Q	Where did you work?
4	A	Before then I was actually a resident. I was
5		in resident training, physician resident
6		training at Geisinger Medical Center in
7		central PA.
8	Q	How long were you there?
9	A	I was there four years.
10	Q	Could you briefly give me a couple sentences
11		on your educational background and your board
12		certifications?
13	A	Sure. I graduated high school in Portugal. I
14		then did a GED here in Rhode Island. I have a
15		Bachelor's Degree in nursing. Graduated from
16		nursing school at Rhode Island College in
17		1998.
18		I decided to then go to medical school,
19		so in 2001 I went to medical school. I
20		graduated in '05 from University of New
21		England College of Osteopathic Medicine.
22		In July of '05
23	Q	Can we take a quick break here for a second.
24		The marshal is on the line for Tony or Kellie.
25		(Discussion off the record.)

1		MR. ICOVE: Thank you, Josh, for
2		your understanding.
3	Q	I think I just asked you a little bit about
4		your educational background and what, if any,
5		board certifications you have.
6	A	Yes. So I think I had finished with my
7		medical school graduation which was in June of
8		'05. I then completed a four year residency
9		training in combined internal medicine and
10		pediatrics at Geisinger Medical Center in
11		Danville, PA. And I am boarded by the
12		American Board of Internal Medicine.
13	Q	I'm sorry, I didn't hear that last statement.
14	A	I am certified by the American Board of
15		Internal Medicine.
16	Q	Thank you.
17		Do you consider yourself to be a gender
18		dysphoria specialist?
19	A	No.
20	Q	Have you ever treated Kellie?
21	A	I never was a direct provider to the patient,
22		no.
23	Q	And it's also fair to say that you've never
24		met her personally?
25	A	Yes, that's correct.

1		
1	Q	And the first time you've met is on this Zoom
2		which she's now listening to; is that fair?
3	A	Yes.
4	Q	Are you a member of the TEC?
5	A	No.
6	Q	Were you ever a member of the TEC?
7	A	When the TEC was first formulated, which I am
8		sorry, I don't remember those dates, I was
9		asked to review a couple of patient charts in
10		regard to their hormone levels, but that was
11		very early on. And no, I was never a formal
12		member of the TEC.
13	Q	Besides reviewing hormone levels did you do
14		anything else for the TEC?
15	A	No.
16	Q	So let's go through the items that are listed.
17		Did you get a copy of those items?
18	A	Yes, I did.
19	Q	So let's look at number 3. Can you answer
20		that particular question for us, please?
21	A	Just for my benefit, because I did have an
22		earlier version and then an amended version,
23		it's
24	Q	I can read it to you. Why don't I do that.
25	A	He just gave me the amended, so that's great.

1 Q Okav. Good. 2 Α But to get my head in a good frame it is 3 actually good to read it out loud, so I will 4 do that. "Do the Defendants require any gender dysphoria experience, knowledge or 5 otherwise of any clinician or contractor that 6 treats inmate with gender dysphoria where 7 Plaintiff is housed?" 8 So, Mr. Icove, how I would answer that 9 10 is the Federal Bureau of Prisons as an agency 11 expects every single institution in the nation to be able to provide gender-affirming 12 treatment. And by and large gender-affirming 13 treatment is provided by primary care 14 15 providers both in the community and now in the Federal Bureau of Prisons. 16 With that in mind, the Bureau has 17 participate, has shared continuous medical 18 education programs for all of their providers 19 to different -- many courses that have been 20 done at the national level. 21 22 We also provide -- there is a committee, a working committee, a support 23 24 committee that is called the Transgender Clinical Care Team which is composed of a 25

couple of physicians, a psychologist, pharmacist, social workers who are a support group for line providers at the institutional level.

require? The answer to that question is we do not have the requirement, or it's not written in policy or any regulatory body that I am aware that someone gets a specific certification in gender dysphoria; however we are all expected -- all institutions are able to have the means to provide gender-affirming care.

- Q And as you indicated there is no specific documentation for that particular requirement; is that fair?
- A Yes. And maybe the only exception to that would be for people who have had a special interest in this area of medicine, who have gone outside of the Bureau to participate in multiple continuous medical education courses.

I have done that. So I have my certificate of completion on having attended multiple of those courses through UCFF, WPATH, Harvard University, et cetera.

1	Q	As you indicated, it's my understanding that
2		that particular completion of those particular
3		courses is strictly voluntary based upon the
4		particular doctor involved?
5	A	That is correct. And it's certainly the
6		standard. We don't require or dictate what
7		kind of education physicians get in regard to
8		heart disease or diabetes. There are a number
9		of other diagnoses. So we do depend on the
10		self awareness of the providers to seek out
11		those opportunities, even though we do provide
12		a fair amount, including a clinical guidance
13		document that pertains directly to
14		gender-affirming treatment.
15	Q	Okay. Are you aware whether or not the gender
16		dysphoria specialist has ever reviewed
17		Kellie's case?
18	A	I did, in preparation for today, review in
19		fair amount of detail. I can't say that I
20		looked at every single document. I did not
21		find an endocrinologist consultation, if
22		that's the question.
23	Q	Yes, that is. Yes. No endocrinologist or
24		someone who is a specialist in gender
25		dysphoria; is that fair?

1	A	That is correct.
2	Q	Okay. You mentioned documents that you
3		reviewed. Do you recall and obviously I'm
4		not going to hold you specifically to any one
5		particular document, but do you recall what
6		documents you reviewed? I assumed you
7		reviewed a lot of stuff, but go ahead.
8	A	I'm sorry, I didn't understand the question.
9	Q	Yeah. That was a little convoluted. I
10		apologize.
11		In preparing for responses to items 3
12		through 7 what documents did you review?
13	A	I reviewed the medical record of the patient.
14		I reviewed the WPATH, few pertinent items of
15		the WPATH Version 7, and then the legal
16		documents that Josh sent me.
17	Q	Okay. Before we talk about legal documents,
18		if they are legal documents from Josh to you
19		about the case they may or may not be
20		privileged. Just go ahead and identify them
21		for the record.
22		What I'm concerned about is I don't
23		want you to give me anything that is
24		privileged on any advice or consult you had
25		with Josh.

1		MR. GARDNER: I appreciate that,
2		Ed. I think to reframe the question to make
3		it easier for Dr. Stahl, Dr. Stahl did any of
4		the legal documents I shared with you form a
5		basis for your answering the 30(b)(6) topics?
6		THE WITNESS: The only documents I
7		understand were forwarded from your office,
8		and they were introducing to affidavits that I
9		had to just be prepared to speak to during the
10		course of this deposition.
11	Q	Okay. Which affidavits were those; do you
12		recall?
13	A	So there is a clinical guidance I can list
14		them.
15		MR. GARDNER: Just to be clear, I
16		think she's referring to the four documents
17		you had sent us.
18		MR. ICOVE: The declarations you
19		sent me?
20		MR. GARDNER: No, no. So the four
21		documents you had sent the court reporter and
22		cc'd me on.
23		MR. ICOVE: Okay. Good.
24		MR. GARDNER: That's in the binder.
25		That's what Dr. Stahl is referring to.

i		
1		MR. ICOVE: Okay. Great.
2	Q	So those particular documents, and those are
3		Exhibits 1 through 4?
4	A	Yes.
5	Q	You looked at those. Okay. Great. Any other
6		documents that you can think of?
7	A	I can't think of any right now.
8	Q	Okay. Good. If you do just let me know.
9	A	Okay.
10	Q	Was Kellie sent out to any outside gender
11		dysphoria specialists in regards to her
12		particular case?
13	A	I did not see
14		MR. GARDNER: Objection.
15	Q	No, go ahead.
16	A	No, I did not I saw that she had a
17		urologist appointment at one point. I did not
18		see an endocrinology consultation in her
19		chart.
20	Q	Okay. Let's go on to Question No. 4. Yeah,
21		why don't you go ahead and read it.
22	A	Question No. 4. The question is: "Do
23		Defendants require any gender dysphoria
24		experience, knowledge or otherwise of any
25		staff or contractor responsible for creating

treatment plans for the Plaintiff?"

And again, Question 3 partially answered this question in that the answer is that the primary care provider who is a licensed independent medical provider, the physician, is ultimately in charge of all treatment plans for every patient over any diagnosis. So even if the plaintiff, the patient had gone out to secure and endocrinology appointment, in the end it's still the primary care provider who is the lead, the pilot physician, if you will, in developing a treatment plan.

So the same would apply again. The BOP does provide CME education courses, has a CME budget and allows physicians and advanced practice providers to participate in outside courses in gender specific courses, but there is nothing regulatory in policy that dictates any specific type of certification for these patients to receive care. And, in fact, in my opinion that would really preclude treatment if certifications were required.

Thank you very much for your explanation which

Thank you very much for your explanation which I understand.

1		So based upon what you've told me, is
2		it fair to say that neither Exhibit 1 nor
3		Exhibit 2 that you were provided provide any
4		requirements that are listed under Item Number
5		4?
6		MR. GARDNER: Objection. Vague.
7	A	Repeat the question.
8	Q	Yeah. You had previously testified that there
9		weren't any specific documents that made these
10		requirements when we talked about 3, and I'm
11		just confirming that those requirements are
12		not contained or any requirements are
13		contained in Exhibit 1 or Exhibit 2?
14	A	I'm going to
15		MR. GARDNER: Objection. Vague.
16		Ed, I think to be clear, when you say
17		requirements, can you just be specific what
18		requirement we're talking about so the Doctor
19		can gave you a clear answer?
20		MR. ICOVE: Exactly.
21	Q	Is there anything specific in Exhibit 1 or
22		Exhibit 2 which relate to the requirements
23		under Item Number 4?
24		MR. GARDNER: Same objection.
25	A	Can I ask a question?

1	Q	Yeah, please.
2	A	I'm wondering, are you asking is there any
3		requirement for an endocrinologist
4		consultation in either Affidavit 1 or 2? Is
5		that the question? Whether our own policy or
6		clinical guidance manual require a provider to
7		involve an endocrinologist in the care of a
8		trans patient; is that the question?
9	Q	Yes, it is. And you're referring to those
10		documents as affidavits. They are just
11		exhibits.
12	A	Okay. Exhibit 1. Sorry.
13	Q	That's fine. That's fine. A rose by any name
14		smells sweet. That's fine. I was just having
15		you confirm it with those particular
16		documents, because I couldn't see anything in
17		there that had any of those requirements. I
18		just wanted you to confirm that I'm not
19		missing something.
20	A	Yes, you are correct.
21	Q	Okay. Good.
22		From a review of Kellie's medical
23		chart let's go to Number 5.
24	A	"What specialists have been consulted with
25		regard to Plaintiff's care?"

1	Q	Correct.
2	A	And the only consulting that again, I might
3		have missed. The only consultant that I know
4		for a fact she did see for hematology workup
5		was a urologist. It ended up being a negative
6		workup.
7		I did not see any other specialist
8		consultant, but I again did not do an entire
9		document review of the medical chart.
10	Q	Based upon the review you did, it fair to say
11		that you didn't see any other referrals for an
12		epidemiologist or a dysphoria specialist; is
13		that fair to say?
14	A	The so dysphoria specialists are an
15		umbrella term that usually refer to
16		psychologists. And she did have a fair amount
17		of interaction to have mental health issues.
18		According to the record there is a history of
19		significant anxiety. And so she did have a
20		fair amount of mental health work that was
21		obvious in the chart.
22		But again, if you are referring to an
23		endocrinologist, I did not see a referral to
24		an endocrinologist.
25	Q	Okay. Can you look at Question No. 6, please?

1	A	The Question No.6. "Why did Defendants inform
2		J. Barnes of the information contained in her
3		clinical note dated January 19, 2018?"
4		I did go to the chart, to the medical
5		record to review that particular entry, and I
6		don't have so
7		THE WITNESS: Do we have that?
8		MR. GARDNER: Yes.
9	Q	Did you see Exhibit 3?
10	A	If it's okay, I'd like the review it again.
11	Q	Please do. Please do. Take your time. I'm
12		not in any hurry.
13	A	So the note in question here says the
14		following: "Discussed case with Region over
15		last several months as well as Chief Medical
16		Officer who confirmed there is no sex
17		reassignment surgeries being done at this time
18		and it is still considered an elective medical
19		procedure rather than medical necessity."
20		So my position, this note was written
21		on January 19, 2018. And this does not
22		reflect at all the position of the Federal
23		Bureau of Prisons as an agency in general.
24		And so I don't have a great explanation as to
25		why this entry was made, but we have been

provided gender-affirming specific treatment for many years now and have presented national conferences encouraging gender-affirming treatment.

I actually had the opportunity to speak with the chief medical officer who was Dr. Allen who I share an office with at this time, to see if he recalls a conversation with Ms. Barnes, who is the author of this clinical note, and he does not remember a conversation with Ms. Barnes in this regard and confirmed that at the time as the medical director he has always encouraged and educated staff to provide appropriate community standard gender-affirming therapy.

- Q So as I look this over, it's fair to say that
 I should talk to Ms. Barnes about this
 particular matter? That would be fair to say,
 correct?
- A That would.

Q Thank you for talking to Dr. Allen about it.

Is there anything else that he informed you about as far as this entry was concerned?

A No. I mean, I asked him a very directed

question about this particular entry.

- 1		
1	Q	Did he confirm is it true that there were
2		no sex reassignment surgeries being done in
3	:	January of 2018?
4	A	So to this date I am not aware that a
5		gender-affirming procedure has been completed;
6		however, that has never been my policy. So
7		just because it hasn't been done yet it just
8		there are a number of factors why that
9		might be the case. But it's never been the
10		Bureau's policy to be against gender-affirming
11		hormone treatment and/or gender-affirming
12		surgery.
13	Q	In regards to this response that you've given
14		me, which I greatly appreciate it, is this
15		particular response documented in any BOP
16		manual or other document?
17		MR. GARDNER: Objection. Vague.
18		Ed, just to be clear, what are you asking?
19		MR. ICOVE: Well, I don't know if
20		she had a problem with it, but I'm more than
21		happy to
22	Q	Doctor, did you understand my question?
23	A	No, I didn't.
24	Q	Okay. Well, I'll rephrase it. Thank you.
25		You indicated that from talking to

Dr. Allen and from your knowledge, the fact 1 that there were no sex reassignment surgeries 2 3 being done as of January of '18 is incorrect; 4 is that what you told me? 5 Α No. MR. GARDNER: Objection. 6 7 Mischaracterizes the witness's testimony. 8 What did you tell me? I told you that I asked Dr. Allen if he 9 Α 10 recalled a conversation with Ms. Barnes where he might have given her the impression that 11 12 gender-affirming surgery was not medically necessary. This is a double negative 13 14 sentence. But essentially, in essence, he denied 15 ever giving any person in the field the 16 17 impression that gender-affirming surgery was 18 not medically necessary. 19 So it BOP's position that gender-affirming surgery can be a medical necessity? 20 21 It can, certainly. So all aspects of gender-affirming treatments are individualized 22 and we know that only a small portion of trans 23 24 or gender nonconforming patients end up needing surgery, but we do recognize that in 25

ſ		
1		those cases it can be medically necessary.
2		Absolutely.
3	Q	And that's done and I don't mean to put
4		words in your mouth, but that's done on a
5		case-by-case basis?
6	A	Yes.
7	Q	And that particular policy is contained in one
8		of the exhibits I gave you; is that fair to
9		say?
10	A	Yes.
11	Q	Okay. Just for the record, could you identify
12		where that's at?
13	A	Did you
14	Q	I think it's page 19. Is that the page you
15		got? Page 19 of Exhibit 1. I'm just trying
16		to keep things moving.
17	A	Yes. Yes.
18	Q	That's all. Okay.
19		That's the first sentence of that
20		particular paragraph?
21	A	That's correct. Which states, "Although
22		individuals may live successfully as
23		transgender persons without surgery,
24		gender-affirming surgery may be appropriate
25		for some and is considered on a case-by-case

1		basis," yes.
2	Q	And I just have one other question about this
3		particular note that I'm confused on.
4	A	Okay.
5	Q	To the best of your knowledge, in January of
6		2018 had there been any sexual reassignment
7		surgeries done?
8	A	Not to my knowledge.
9	Q	And as of today you're not aware of any; is
10		that fair to say?
11	A	Yes.
12	Q	So BOP considers gender-affirming surgery to
13		be elective; is that fair?
14	A	No.
15	Q	It's not elective? It can be necessary in a
16		case-by-case basis, right?
17	A	That is correct.
18	Q	Okay. Thank you.
19		I'm sorry for this but I need to make
20		sure that I understand your testimony. Thank
21		you.
22		Let's go to Number 7, if we could
23		please.
24	A	Number 7, "Why requests for gender-affirming
25		surgery have not been ripe for consideration

and approval over the past ten years;" is that 1 2 the question? 3 Yes. Thank you. So from what I understand we have been trying 4 to follow the WPATH criteria. And while the 5 6 WPATH specifically references the expectation 7 that gender-affirming therapy is provided at 8 all institutions, there have been patients who just have not been able to meet all of the 9 WPATH criteria. 10 So from what I understand we have not 11 12 had -- and using your terminology -- a patient 13 who has been ripe for the gender-affirming therapy. I am not aware of any case who has 14 been submitted to the medical director's 15 16 office for review of a gender-affirming 17 procedure to this date. 18 Q And that determination would be by the medical 19 director based upon the evaluation done by the 20 TEC? So the medical director would have final 21 Α 22 clinical authority over the decision to pursue 23 gender-affirming surgery by policy because it's considered an extraordinary type of 24 25 surgery. So very similar to a solid organ

1		transplant, which is considered a medical
2		necessary treatment. But because it's
		-
3		considered medically extraordinary it would be
4		routed through and finally reviewed and
5		approved by the Office of the Medical
6		Director.
7	Q	How do you define extraordinary for the
8		purposes of severe physical impairments?
9	A	I have to review that. I'd have to refer the
10		policy to answer that.
11	Q	Okay. That's fine. Is there a policy off the
12		top of your head that you can think of or
13	A	I know it's in the patient care program
14		statement for the Federal Bureau of Prisons.
15		I would have to research the exact section
16		that pertains to this language.
17	Q	Okay. Well, if you could do that and give it
18		to your counsel at your earliest convenience,
19		that would be great.
20		Is there any other document that you're
21		referring to to determine whether or not
22		something is an extraordinary mental or
23		physical disability?
24		MR. GARDNER: Objection. Misstates
25		the witness's previous testimony.

1		
1	Q	Are there any other documents that you're
2		aware of that relate to what is determined to
3	ii	be extraordinary medical/mental disorder?
4		MR. GARDNER: Objection.
5		Mischaracterizes the witness's previous
6		testimony.
7	Q	Do you understand my question? Your attorney
8		is allowed to make objections during this
9		particular proceeding. He's not entitled to
10		make speaking objections, but I really don't
11		care because you're a professional and he's a
12		professional and I'm a professional. But the
13		rules provide he's not allowed to tip you off
14		as to what to say or what not to say.
15		Can you answer the question, or do you
16		need me to rephrase it?
17	A	The part of the question that is confusing is
18		when you are adding extraordinary mental
19		disorder. I don't know what that means. So
20		we have policy that
21	Q	Let's drop off excuse me. I don't mean to
22		cut you off. Let's drop off the mental
23		disorder, let's just talk about the physical
24		disorder.
25	A	Can you rephrase?

1		
1	Q	How does the BOP determine an extraordinary
2		medical
3	A	Procedure.
4	Q	Exactly.
5	A	Yes. So we do have I'm only aware of one
6		policy where that is covered and it is under
7		our patient care program statement which we
8		will provide.
9	Q	Okay. Thank you so much. That's very
10		helpful.
11	A	Uh-huh.
12	Q	Now, we talked about Question 7, and I wanted
13		to know if you recall off the top of your head
14		what research are you aware of that support a
15		determination that gender-affirming surgery is
16		not ripe over the last ten years?
17	A	Can you rephrase the question?
18	Q	Yeah. What reasons were you what reasons
19		do you know, from what you've read and from
20		what you've reviewed in your position that
21		you're aware of that supported a determination
22		that for over the last ten years
23		gender-affirming surgery has not been ripe for
24		consideration or approval?
25	A	Okay. So there has been a number of factors

2

3

4

25

that have been challenging for most patients to be considered meeting all the requirements of WPATH. One, if there are co-existing medical or mental health conditions they need to be reasonably controlled before a surgeon will pursue gender-affirming surgery; 12 continuous months of hormone levels that are at goal, to meet the patient's goals. So when it's a trans they usually would need to be at 12 continuous months of at goal hormone That can sometimes be a problem for some patients who are often noncompliant with treatment, forget to pick up their meds, sometimes they hoard their meds and stop taking them without telling anyone. So that's a challenge.

Being able to provide a gender-affirming experience in a opposite institution -- so for a trans female to be able to be located, transferred to a female institution for 12 continuous months without running into trouble, security issues with other prisons I know has been a challenge at times.

Those are probably the main factors I

would suspect that have contributed to not being able to meet all of the WPATH criteria.

And lastly maybe my -- another thought is that surgeons require letters of support for these procedures; one from a mental health worker and one from a medical provider. And so if there are noncompliance issues between the patient or if there is distrust issues between the treatment modality, if you will, that also will lead to further pause.

And again I will bring up the medical transplant of solid organs. While everyone agrees that at the end of your liver's lifetime that you would only live if you get a liver, that certainly is something that we recognize as necessary, but it doesn't mean that everyone is actually going to get that liver.

So while we recognize the medical necessity we certainly recognize that it does not entitle someone for that procedure.

So I know that was a long winded answer.

No, it was very informative and I appreciate it because you answered a lot of the questions that I have.

1 Are you aware of any other reasons besides the ones you've indicated? 2 3 Those are -- I'm sure there are many other 4 reasons. And again, because we make individualized decisions and every case is 5 different from the next, but those would 6 7 probably be the top three or four categories 8 of major co-existing factors that go into this 9 decision. Are those particular factors from any source 10 Q that you're aware of, or is this one that the 11 department has put together itself? 12 13 MR. GARDNER: Objection. Vague. 14 Did you understand the question? 0 15 Α No, I didn't. It was a little vaque. could just narrow down or rephrase it and I'll 16 17 be able to answer. 18 Do these particular criteria -- and you've Q mentioned four or five of them; are those from 19 any particular document; for example, the 20 Are they from the factors of the WPATH 21 22 or are they something that the Bureau has put 23 together? Those factors are the criteria that I was 24 Α 25 going over that has been particularly

1		
1		challenging for in-prison federal inmates to
2		meet towards those specified by WPATH.
3	Q	Good. So let's quickly go through those so
4		far as what you've reviewed for Kellie.
5		It's fair to say that she has had a
6		consistent well documented
7		MR. GARDNER: Objection.
8	Q	gender dysphoria?
9		MR. ICOVE: I'm sorry. I wasn't
10		done with the question.
11		MR. GARDNER: I'm sorry. I thought
12		you were, Ed.
13		MR. ICOVE: That's okay. By the
14		way, Josh, just so you know, I will stipulate
15		for the record that you are not going to waive
16		any objection that you make during the
17		deposition.
18		MR. GARDNER: I appreciate that.
19		MR. ICOVE: I do that with all
20		counsel.
21		MR. GARDNER: I appreciate that.
22		But we do object. Beyond the scope of the
23		30(b)(6) deposition.
24		You can answer to the extent of your
25		knowledge.

1		
1	A	Sorry. So what is the question?
2	Q	You know what, I'm sorry, I don't need
3		necessarily to ask you. I don't need to ask
4		these of you, I can ask these of somebody
5		else.
6		MR. GARDNER: Ed, I was just going
7		to say
8		MR. ICOVE: I'm not going to
9		quibble with you guys. There are plenty of
10		people that I can ask this of, but it's just
11		the thought that she was probably the best
12		person.
13		MR. GARDNER: Just as a reminder,
14		this isn't a speaking objection but just for
15		your edification we are making Dr. Eplin
16		available to answer exactly those types of
17		questions.
18		MR. ICOVE: Great. Thank you.
19		I was going to ask her about that
20		particular line of questioning. Thank you.
21	Q	Is it your understanding that Kellie's
22		diagnosis includes gender dysphoria, panic
23		attack disorder and depression?
24		MR. GARDNER: Objection. Beyond
25		the scope of the Rule 30(b)(6) deposition.

Again, I'm just making an objection. 1 I'll tell you what, 2 MR. ICOVE: 3 let's do this: At the end of the 30(b)(6) categories I will go ahead and ask the 4 5 questions and we'll do it that way, which we 6 had talked about before. Okay. I'm sorry. 7 O You indicated that you have reviewed Kellie's 8 Did you look at the record that had record. the most recent estrogen level? It was dated 9 June 15, 2021. 10 11 Yes, I did. And what was that particular level? 12 0 13 Her hormone levels were at goal. For a total 14 testosterone it should be less than 55, and for an estradiol level it should be around 15 200. 16 17 So if there were more comparable levels in 0 this range she would be at goal; is that fair 18 19 to say? Any time that her total testosterone is less 20 Α than 55 and that his estradiol level is around 21 22 200 she will be considered to have female level hormones, taking into consideration that 23 a native female will have levels anywhere 24 25 between the 80 to 200, sometimes 300 level.

20

21

22

23

24

25

So we do understand that with fluctuation of levels in a native female might be slightly different than we expect for gender-affirming therapy, which is why the American Endocrinology and the experts in this field believe that a level of estradiol around 200 is considered at goal. Q So now I'm going to ask you a few other questions that aren't specifically -- although I think they are reasonably connection to your testimony. We'll start there. It will only take a minute or two. Is it fair to say that Kellie has been diagnosed with gender dysphoria, panic attack disorder and depression? So I did not go into any detail over the Α mental health record. I do know from reviewing the medical portion of her medical record that panic attacks, anxiety in general, depression were mentioned. Yes, she has had a validated gender dysphoria diagnosis for quite some time. And based upon your review of the records and Q your position, is it your opinion within a reasonable degree of medical certainty that

1 her gender dysphoria is a serious medical 2 need? 3 MR. GARDNER: I'm sorry, Ed, you 4 dropped off there. 5 MR. ICOVE: Karen, you want to 6 read that back? (Ouestion read.) 7 8 MR. GARDNER: Objection. 9 the scope of the Rule 30(b)(6). Also objection, lack of foundation. 10 And for the record, I 11 MR. ICOVE: indicated these questions are in addition to 12 the 30(b)(6). And my understanding, based on 13 our conversation is I get a half hour to do 14 So let's finish it up and get it done. 15 these. MR. GARDNER: Ed, that's not 16 17 consistent with our understanding. We put Dr. Stahl up as a 30(b)(6) designee only. 18 19 did not seek to take Dr. Stahl's deposition in an individual capacity. I'm only going to 20 21 give you a little bit of latitude if you have a few questions for her. Let's be clear this 22 is not per agreement at all. 23 Okay. Well, I'll be 24 MR. ICOVE: 25 more careful next time we make agreements.

	Our agreement was that any of the 30(b)(6)
	people that I wanted to testify to other
	issues, they would count as a separate half an
	hour deposition. And I'm sorry that we don't
	agree on that, but let's not waste any more
	time, okay?
	MR. GARDNER: That's fine.
Q	What is your position regarding why the
	gender-affirming surgery hasn't been completed
	for Kellie?
	MR. GARDNER: Objection. Beyond
	the scope of the Rule 30(b)(6) deposition.
	MR. ICOVE: I'll stipulate to
	your continuing objection on those bases. You
	can object every time you want to, but just as
	I indicated, I preserve those. And all these
	questions are going to be subject to the same
	objection.
	MR. GARDNER: I understand.
Q	Okay. Could you answer the question please if
	you can?
A	Rephrase the question please.
Q	I will.
	Is it your understanding that Kellie
	was turned down for the surgery because she
	Q

1		didn't complete the requirements of her
2		ability to be successfully transitioned to a
3		female facility?
4	A	Yeah, I actually cannot answer that question
5		at all.
6	Q	That's fine.
7	A	Yeah. I don't have the knowledge of you
8	i	know, I don't have enough knowledge of her
9		medical care and all of the factors that weigh
10		into her treatment plan to answer that
11		question.
12	Q	Right. And in answering the questions
13		regarding people that have had surgery for
14		serious medical conditions, and putting aside
15		gender surgery, in the last five years or so
16		what serious medical impairments were referred
17		out for surgery for these inmates, just off
18		the top of your head?
19		MR. GARDNER: Objection. Lack of
20		foundation. Overbroad.
21		THE WITNESS: I don't know what
22		he's asking.
23	A	I'm sorry I don't even know I don't know
24		the question. I don't understand the
25		question.

That's fine. I'm asking you, regardless of what your attorney says, and, you know, he's really not allowed to tell you or give you any hint as to whether you should object or not object to something if you don't understand it. You're supposed to have a conversation with me. So let's -- I only got a couple more questions.

Are you aware of any other inmates that had been treated for serious medical impairments outside of the prison system? talked briefly about it and we mentioned -you mentioned -- I just wanted to follow-up. You mean any -- of course. Any serious medical conditions whose needs cannot be met at an outpatient clinic are referred out to medical hospitals and specialty centers. Okay. And can you give me examples of those types of serious medical impairments? Obviously it wouldn't be all inclusive, but just off the top of your head. It could be a number of things. End stage kidney disease, cancer, referrals for cell organ transplants. I mean, the list is huge.

Severe head trauma, and to include gender-

affirming treatment, if there are co-existing 1 2 medical conditions that would flag the patient 3 for high risk such as pre-existing cancer or 4 even blood clotting disorders. There could be 5 a number of complicating co-existing serious 6 conditions in a gender nonbinary patient who 7 would require comanagement by a subspecialist. 8 I don't have any further questions of you. Q You're entitled to -- I want to thank you very 9 much for coming today and telling us what you 10 You're entitled to review the 11 deposition for any corrections, or you can 12 waive your signature. That's up to you and 13 14 your attorney. MR. GARDNER: The witness will 15 16 reserve the write to read and sign. MR. ICOVE: Thank you. Let's qo 17 18 off the record. (Deposition concluded at 10:06 a.m.) 19 (Signature not waived.) 20 21 22 23 24 25
